Dear Doctor

**RE: Francis Terry Wilkinson DOB:11/07/1946 URN: 20403879
Bondo 1147 Myalla Road Cooma NSW 2630**

We had the pleasure of reviewing Mr Wilkinson as part of Dr Mews' neurosurgical clinic.

Mr Wilkinson presented for routine surveillance postoperatively after having undergone a transphenoidal resection of pituitary non-functioning adenoma. Mr Wilkinson states he has been well. He is still struggling to titrate his endocrine replacement. He reports no new questions or concerns. He has had a repeat MRI at I-MED Radiology which demonstrates no recurrence of his adenoma. We think it would be appropriate to continue surveillance and we have given him a request for an MRI in 1 years time.

If you have any further questions please feel free to contact us.

Yours sincerely

Dictated by: Dr. Barton Waser
